Pride India's projects have enjoyed excellent returns due to choice of location and the economical rates at which they are available.

The Company's image and credibility have also been an attractive draw for many investors and potential home-owners.

The preliminary plotting efforts and layout plans have been commendably executed and a growth of 50% in two years' time will not come as a surprise.

Open plot for sale

Buying a plot of land and building a house on it is a dream for many of us.

The most attractive feature of this is the fact that it gives us the option of building later, conforming to our most exacting standards.

Open plots have always been the best investments and have shown phenomenal growth in all our ventures.
